TO WHOM IT MAY CONCERN

Volac International has had a longstanding good relationship with Rodney Macgowan over the past 15 years in the Northern Ireland agribusiness sector.

As Commercial Director, Volac Ireland, I have been directly involved with Rodney over the past 5 years. Volac Ireland is a sales and marketing company, part of the Volac International group, who have their headquarters in Cambridge and three manufacturing sites in the United Kingdom.

We use Rodney Macgowan across all of our product portfolios for maximising P.R. opportunities, rewriting articles to suit Northern Ireland agri media, support in the organisation of photo shoots, farm walks, shows etc. Our relationship with Rodney is excellent and he is important to us to maximise links in Northern Ireland as his reputation and contacts are excellent across all the agricultural media. He is very enthusiastic and diligent with any work undertaken and delivers over and above on any of our joint work.

Pat Cahill

Signed:

Pat Cahill
